Caddo-Bossier Windows User Group Newsletter

March 2011

February Meeting

The February 10, Caddo-Bossier Windows User Group meeting was canceled because of predicted 15 to 20 degree temperatures Thursday evening and a possibility of roads and bridges icing over through Friday morning.

Many of our members drive a long distance to attend the meetings and we did not want to take any chances that roads and bridges might ice over by the time our meeting was over and cause hazardous driving conditions.

As it turned out the predicted bad weather did not materialize but we feel we made the right decision.

For the March meeting we should have much nicer weather and look forward to seeing everyone there.

We will have our door prize drawing and all current paid up members and new members that join and pay their dues before the door prize drawing will be eligible to put their name in the jar for a chance to win one of the two door prizes that will be given away, and of course get their picture taken for the April newsletter.

Remember to set your clocks forward on March 13 for Daylight Savings

March Program

Bernie Conradi will present the program for March and has a lot on the agenda. As always he allows plenty of time for questions about any computer problems you may be having and also allows time for discussion before the program.

We hope you will be able to come, and visitors are always welcome.

HAPPY ST. PATRICK'S DAY !
